Caribbean Certificate of Secondary Level Competence

INTRODUCTION

The Caribbean Examinations Council (CXC) in consultation with policy makers and educators in CXC Participating Territories identified the need for a new programme that *would* respond to the changing demands of the education sector. A major development *has been* the move by all territories to universal secondary education *which* enables persons with a wide range of abilities to benefit from educational provision at this level. The decision to implement programmes to achieve universal secondary education is based on an understanding that the region needs a well educated and trained labour force for an increasingly competitive global environment. A sound secondary education foundation is imperative for further education and training *and for entry in the world of work*.

Several territories, *having* recognised the need for a programme that *would* meet the new needs in secondary education, had embarked on the development of national programmes. However, through consultations at the regional level, policy makers and educators recognised that a regional intervention by CXC *would* have several benefits including cost-effectiveness, *common standards*, portability of certification and regional and international recognition.

CXC has responded. Through the consultative processes employed in syllabus development, *CCSLC was developed* and first examined in 2007. The programme which is competency-based comprises a core of subjects – English, Integrated Science, Mathematics, Modern Languages and Social Studies. Through this core, the learner should acquire the knowledge, skills, competencies, values and attitudes that are desired in a secondary school leaver. The core developed by CXC subject panels will be examined by CXC. In addition, learners can gain additional benefit through special programmes that may be added as electives to the core at national level.

Policy makers and educators have noted that, ideally, this core programme could be taken by all students at the stage when they are ready. However, the decision on who should take the examination and in what year it will be taken will be *made* at national level in consultation with CXC. A person who successfully completes this core should have the foundation for further education and training and for entry level employment. In developing and implementing this programme at the secondary level, CXC, working with its partners, took into consideration the cultural context and the aspirations of regional governments for a well educated and trained labour force to meet the targets set for social and economic development *as enshrined in the CARICOM document “The Ideal Caribbean Person (2000)”*. *The foundation that this programme will provide is an imperative as a base for the development of citizens as the most valuable resource of the small states of the region.*

The main focus of this programme is derived from the aspirations of regional governments and the Caribbean Community (CARICOM) which acknowledge that education is the route to healthy democracies and sustainable development. The curriculum is therefore competency based and encompasses the knowledge, skills, attitudes, values and attributes expected of high school graduates by regional Governments. Some of these knowledge, skills, attitudes, values and attributes or competencies are generic and cut across all five subjects, whilst others are peculiar to each of the five subjects of the curriculum. The generic and subject specific competencies targeted for development in the curriculum are given below.

GENERIC COMPETENCIES

- PROBLEM SOLVING
- CRITICAL THINKING
- INFORMED DECISION MAKING
- MANAGEMENT OF EMOTIONS
- POSITIVE SELF CONCEPT
- WORKING IN GROUPS
- HANDLING CONFLICT
- DEALING WITH DIVERSITY AND CHANGE
- INDEPENDENT LEARNING STRATEGIES
- COMPUTER LITERACY
- TECHNOLOGICAL LITERACY

SUBJECT-SPECIFIC COMPETENCIES

- ABILITY TO COMMUNICATE ORALLY AND IN WRITING
- ABILITY TO FUNCTION IN A FOREIGN LANGUAGE
- MATHEMATICAL LITERACY
- SCIENTIFIC LITERACY
- SOCIAL AND CITIZENSHIP SKILLS

COMPETENCIES

The structure of the programme takes into consideration that the attainment of the competencies identified is the result of processes that require life-long learning and that mastery is attained by progressive steps over differing periods of time. Bearing in mind that one of the main purposes of the curriculum is to prepare individuals to participate fully as productive members of society, key competencies have been identified that are essential for daily living with emphasis on the workplace. A Learning Grid (Appendix I) lists the key competencies across the five subjects of the curriculum, identifies a reference number and indicates the subjects or group of subjects that specifically engage the learner in its development.

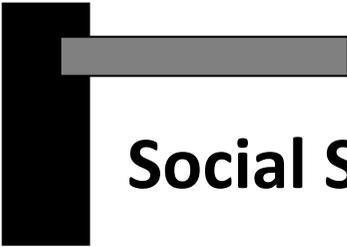

OUTCOMES OF THE CURRICULUM

The curriculum hinges on the realisation that teaching and learning are essential instruments for the development of autonomous individuals who will be able to function effectively as productive members of society. In this regard, the curriculum has identified knowledge, skills, attitudes, values and attributes or competencies that students who master the programme should have attained. These include:

- a positive image of self, family, community, region and world;
- respect for others irrespective of age, class, creed, gender, ethnicity, physical disabilities or nationality;
- an abhorrence of violence in all its forms and commitment to settle disputes through arbitration and conciliation;
- the capacity to understand that individual freedom is consonant with the acceptance of personal responsibility for one's own actions;
- commitment to ethical and moral societies that recognise equality of opportunity, freedom of expression and association, and the right to fair judicial process.

Main Elements of the Curriculum

- *It provides the foundation knowledge, skills and attitudes required at the secondary level.*
- It provides the foundation for further education and training and for entry level employment.
- It provides articulation between and within subject groups offered in the Caribbean Secondary Education Certificate (CSEC) examination by catering for students who continue at secondary school to take General Proficiency examinations in academic or technical and vocational or a mix of academic and technical and vocational subjects.
- It facilitates articulation within the wider school curriculum and responds to the developmental needs of the region.

Social Studies Syllabus

◆ RATIONALE

The inclusion of Social Studies in the school curriculum is influenced by the premise that *an understanding* of self, family, community, region and the world, will foster an appreciation of self and the environment. *Learners will be sensitised* to the need to respect themselves and others irrespective of ethnicity, status, *belief, gender or class*. *The syllabus aims to equip young adults with the knowledge, skills, attitudes and values that would enable them to develop competencies to negotiate the increasingly complex and dynamic global environment in which they live and work.*

The approach to the delivery of the subject is interdisciplinary, drawing from a variety of other disciplines including History, Geography, Sociology, Political Science, Anthropology and Economic, and explores the interaction between individuals and their physical and socio-cultural environment.

The syllabus seeks to instil tenets of the Ideal Caribbean Person as articulated by the CARICOM Caribbean Education Task Force (CTF) and adopted by the CARICOM Heads of Government at their 18th Summit. To this end the syllabus contains objectives and content intended to nurture and improve students' social responsibility, personal management skills and foster a positive work ethic.

On completion of the programme, students will have acquired the competencies to deal with issues and challenges faced in their daily lives and are able to function effectively as productive citizens. For those seeking employment immediately on leaving secondary school, the programme provides the necessary marketable social skills for effective participation in the world of work.

◆ AIMS

The study of Social Studies is intended to assist students to:

1. *develop a healthy appreciation for self and the importance of one's mental, spiritual, physical and social well-being;*
2. *provide opportunities for self-analysis and the development of social skills;*
3. *display knowledge, skills, attitudes and values that will enable them to become productive citizens;*
4. *appreciate the importance of living together in harmony;*
5. *develop an appreciation for their environment and contribute towards its sustainability;*
6. *adapt to the changing social, economic, political and technological forces in their country, region and the world;*
7. *appreciate their own cultural heritage and cultivate tolerance for the cultural heritage of others;*
8. *develop civic competence, attitudes and values to function as productive citizens.*

◆ GENERAL OBJECTIVES

On completion of this syllabus, students should:

1. *demonstrate the ability to make informed decisions on moral and ethical issues;*
2. *develop an appreciation of family and kinship;*
3. *develop and practice social skills and values which create positive personal and interpersonal relationships;*
4. *develop attitudes and values that will enable them to make meaningful contributions as members of society;*
5. *develop a sense of national identity and pride.*
6. *accept responsibility and be accountable for the effects of their actions on their own lives and the lives of others;*
7. *appreciate the value of good work ethics for employer and employee.*
8. *understand the impact of globalisation on the Caribbean society and economy;*
9. *develop an appreciation of the need to respond/adapt to global changes.*

◆ COMPETENCIES TO BE ASSESSED

The following skills and abilities are to be assessed:

1. Problem solving using systematic procedures.
2. Collecting, organising, interpreting and presenting information (research).
3. Displaying appropriate attitudes and behaviour in the conduct of inter-personal relationships (exercise of good interpersonal skills).
4. Exhibiting good citizenship practices in local and regional contexts.
5. Working collaboratively in groups.
6. Reading and interpreting maps and other graphical representation.

◆ ORGANIZATION OF THE SYLLABUS

The syllabus is arranged in Five Modules, namely:

Module 1 – Dimensions of Self

Module 2 – Community Interaction

Module 3 – Responsibility and Accountability

Module 4 – Regional Perspective

Module 5 – The Global Village

◆ RECOMMENDED APPROACHES TO TEACHING THE SYLLABUS

The syllabus is designed using the philosophy that the acquisition of mastery is a progressive process which requires constant practice and reinforcement. It is envisaged that students will master the stated objectives only after they have been given the opportunity to produce multiple drafts and received corrective feedback from teachers to improve on those drafts.

The syllabus is not intended to be delivered in a strict, didactic lecture format. Rather, teachers are asked to adopt an interactive, experiential learning, student-centred approach. Many topics impact the affective domain and require students to acquire life skills that are influenced by their environment, both at home and at school. Teachers should be cognizant of this and facilitate and encourage students' expressions and perceptions of right and wrong, mores, attitudes and values, while administering socially acceptable behaviours. The suggested teaching and learning activities are neither prescriptive nor exhaustive. Teachers are encouraged to adapt the activities described to their peculiar classroom situations and to add activities as they seek to maximise student engagement in their own learning.

Real-life experiences should be solicited and a problem-solving approach should be employed throughout the delivery of the syllabus. This approach is imperative especially when delivering objectives topics such as conflict resolution, juvenile delinquency, gang violence and the generation gap. It is also recommended that teachers take note of the varied ways in which students learn. Teachers should design lessons to cater for the visual, auditory as well as the tactile/kinesthetic learner. Along with these learning styles, due attention should be made to the multiple intelligences of students in heterogeneous class groups.

It is highly recommended that students maintain a portfolio that records their experiences throughout the programme. An overarching objective of the syllabus is to inculcate in students an appreciation of the peoples, customs and institutions in their immediate and regional environment. This objective can be supported and actualised through the use of the Internet and Information and Communication Technology (ICT). Teachers should therefore monitor and guide students to use communication technologies including social media, blogs and micro blogs, social networking sites (e.g. Facebook) and content communities (e.g. YouTube). Posters, portfolios and PowerPoint presentations should be used to record and share teaching and learning experiences.

Use of formative assessment is an essential part of improving student achievement. These assessments provide teachers with feedback to determine student readiness for the school-based assessment. Teachers should adapt these assessments and design additional ones where necessary. School-based assessment must be done exactly as specified in the generic task at the end of each Module. The examples provided in the syllabus show teachers how to create assessments to meet the specification of the generic task. Teachers may use this assessment but they are also free to design assessments which better suit their local context. However, the specification of the generic task must be reflected in these assessments and the mark scheme and rubrics provided must be used in determining the grades submitted.

◆ ASSESSMENT GUIDELINES

Assessment is an integral component of the programme of studies. Its major functions include facilitating learning, providing information which may be used by students and teachers in the *planning of subsequent instructional experiences, and providing information on the level of proficiency demonstrated by the student. Teachers are encouraged to take advantage of the flexible structure of the programme to ensure that students demonstrate mastery of each increment of the programme. A student who has attained mastery should, on any subsequent occasion, and without assistance, be able to demonstrate the highest levels of proficiency on the same or an equivalent task.*

The assessment for each syllabus comprises two major components: *School-Based Assessment (SBA)* and External Assessment (EA).

SCHOOL-BASED ASSESSMENT (SBA)

This assessment spans two phases.

Phase 1:- Formative Assessment

Teachers assess students to identify their areas of strength and weakness. This assessment may be formal or informal, and is usually continuous and integrated with teaching and learning. Some teaching and learning activities are suggested in this programme of study and the assessment tasks may either be designed or sourced by the teacher, or may be selected or adapted from those provided in the assessment column of this programme of study.

Information derived from this type of assessment should be used by teachers and students in planning subsequent action. Students should be encouraged to assess themselves (self- and peer- assessment) and, wherever practical, to participate in the planning of subsequent activity. The effectiveness and management of this approach may be enhanced by sharing the assessment criteria with students before the assessment is done, or by engaging them in the development of these criteria.

Phase 2:- School-Based Assessment

Teachers assess students in order to create an objective record of the highest level of proficiency demonstrated. Students may be assessed any time after the teacher deems that they have attained mastery. Teachers may also provide exercises which integrate skills across the Modules. The students may be assessed individually or in groups, and the arrangements and scheduling may be influenced by the nature of the task, and logistical and administrative considerations. *A single school-based assessment is required for each Module that is marked using a standardised scoring rubric. Each subject has five Modules, and for each student, the teacher will submit to CXC the marks for each Module.*

The following three specifications facilitate the standardisation of the school-based assessment:

- (a) A generic task is outlined at the end of each Module. This task provides general specifications, and conditions which must be satisfied by the assessment undertaken by all students. However, within the limits specified, teachers may adapt the tasks to reflect local or individual interests. For each assignment, one example of an adaptation is given.
- (b) A standardised rubric or mark scheme is defined and is to be used by the teacher in scoring all students' work. This rubric/mark scheme is designed to clearly indicate the dimensions of interest and the relative importance of each; consequently, it may be used by teachers to verify the appropriateness of their adapted task. While the generic task may be adapted, the mark scheme is not to be adjusted. **The same mark scheme is to be used by all teachers and students across all centres and territories.**
- (c) *It is expected that quality control and monitoring of teachers' adherence to the specifications will be arranged and managed at the level of the institution.*

In order to ensure that students have reasonable opportunity to achieve and demonstrate mastery, teachers can afford their students multiple opportunities to retake or resubmit the school-based assessment for any Module. Feedback and suggestions for improvement may be provided between attempts, however, the process should be transparent and objective, and the mark awarded should be indicative of the level of proficiency that the candidate would be able to demonstrate independently. The achievement of mastery is emphasised in this programme; thus, a student will be expected to achieve a minimum of 50 per cent of the marks available for the *school-based* assessment component that will be completed in preparation for taking the external examination.

MODULE SCHOOL-BASED ASSESSMENT TASKS

- MODULE 1 - Case Study
- MODULE 2 - Research Project and Biography
- MODULE 3 - Monthly Budget and an Interview
- MODULE 4 - Scenario Incorporating aspects of Caribbean Culture
- MODULE 5 - Scenario and completion of table

MODERATION OF SCHOOL-BASED ASSESSMENT

Teachers will be required to submit when requested by CXC, a sample of candidates' work completed for School-Based Assessment for moderation purposes. This procedure serves to ensure that the scores awarded by teachers throughout the system are consistent with the standards set by CXC. The samples will be reassessed by a CXC examiner. The examiner's comments will be sent to teachers as Moderation feedback.

EXTERNAL ASSESSMENT

At any given sitting, candidates may register to write the external examination in one or more subjects. The external assessment will be a multiple-choice examination comprising 50 items.

◆ ELIGIBILITY FOR CCSLC

A candidate will be awarded the CCSLC certificate if HE/SHE over a period of up to five years, successfully completes a minimum of **five** subjects selected as follows:

1. **Two compulsory subjects**

Syllabus developed by CXC specifically for this programme

- (a) *English*
- (b) *Mathematics*

2. **Three subjects from any group or combination of groups listed below:**

(a) **Other subjects developed by CXC specifically for CCSLC**

- (i) *Integrated Science*
- (ii) *Modern Languages: French or Spanish*
- (iii) *Social Studies*

(b) **CSEC, TVET and Business Studies Programme – Grades I, II, III and IV**

<i>Home Economics: Management</i>	<i>Principles of Business</i>
<i>Clothing and Textiles</i>	<i>Principles of Accounts</i>
<i>Food and Nutrition</i>	<i>Electronic Document Preparation and Management</i>
<i>Building Technology</i>	<i>Electrical and Electronic Technology</i>
<i>Mechanical Engineering Technology</i>	<i>Office Administration</i>
<i>Agricultural Science</i>	<i>Information Technology</i>
<i>Technical Drawing</i>	<i>Economics</i>

(c) **CSEC Creative and Expressive Arts – Grades I, II, III and IV**

<i>Music</i>	<i>Theatre Arts</i>
<i>Visual Arts</i>	<i>Physical Education and Sport</i>

(d) **TVET and other Programmes certified by other Boards**

For example, City and Guilds, Heart Trust/NTA (Jamaica) and Royal College of Music

(e) **TVET Level 1 Programmes available in the Region**

For example, Beauty Culture, Auto Mechanics, Cabinet Making and Hospitality

(f) **Any locally certified enrichment programme which satisfies the criteria set by CXC**

For example, Citizenship Education and Community Service

3. Reporting CCSLC Results

Scores from the School-Based Assessment (SBA) and the External Assessment (EA) will be combined to give a composite score with a maximum of 100. A single subject grade will be reported. The grade boundaries are as follows:

Composite Score	Grade
75 - 100	Master
50 - 74	Competent
1 - 49	Developing Competence

4. Certification

- (a) A result slip will be *issued* after every sitting of subjects developed by CXC.
- (b) A Certificate will be awarded after a candidate achieves a minimum of Competent in five subjects within a five-year period.

5. Grading Scheme

Candidates who satisfy the requirements as outlined for the CCSLC, will be awarded a certificate that is jointly conferred by CXC and the local Ministry of Education.

◆ FORMAT OF THE ASSESSMENT

School-Based Assessment Five *school-based* Module Assessments – one per Module.

External Assessment Fifty multiple-choice items; each item will have four options.
(1 hour 15 minutes)

NOTES ON THE EXAMINATION

1. CXC will set and mark the external assessment.
2. The teacher will set and mark the assignments that make up the *School-Based Assessment* of each Module using the Guidelines provided *at the end of each Module*.
3. The teacher will submit marks for each of the five Modules.
4. Samples submitted for moderation must be accompanied by a scoring rubric.
5. The teacher will submit the *marks for each Module* to CXC no later than 31 May .
6. CXC will combine the marks earned on the *school-based* and the external assessment to produce the candidate's overall grade.
7. *All school-based assessment materials must be retained by the school for at least six months after the issuing of results.*
8. The *mark* allocation for this syllabus is shown below:

Component	Marks Allocated					Total Marks	% Contribution to Composite score
	Module 1	Module 2	Module 3	Module 4	Module 5		
School-Based Assessment	20	20	20	20	20	100	50
External Assessment	12	8	12	10	8	50	50
% Contribution to Composite score	22	18	22	20	18	*****	100

9. *A candidate will be awarded the certificate if he/she over a period of up to five years after first sitting, successfully completes a minimum of five subjects as specified on pages 5 – 6.*
10. *A result slip will be provided after every sitting for which a candidate registers for the external examination in one or more subjects.*

◆ **REGULATIONS FOR RESIT CANDIDATES**

1. *Resit candidates must complete Papers 01 and 02 of the examination for the year for which they re-register. Resit candidates who have earned 50% of the **MODERATED** score for the School-Based Assessment may elect not to repeat this component, provided they re-write the examination no later than the year following their first attempt. The scores for the School-Based Assessment can be transferred once only, that is, to the examination immediately following that for which they were obtained.*
2. *Resit candidates must be entered through a school or other approved educational institution.*

◆ **MODULE 1: DIMENSIONS OF SELF**

This Module contains the following topics:

- (a) *Personal Characteristics;*
- (b) *Stages of Human Development;*
- (c) *Understanding Myself;*
- (d) *Family and Kinship.*

◆ **GENERAL OBJECTIVES**

On completion of this Module, students should:

1. *demonstrate the ability to make informed decisions on moral and ethical issues;*
2. *develop an appreciation of family and kinship;*
3. *develop and practice social skills and values which create positive personal and interpersonal relationships.*

SPECIFIC OBJECTIVES	CONTENT	SUGGESTED TEACHING AND LEARNING ACTIVITIES	ASSESSMENT
Students should be able to:			
(a) Personal Characteristics			
1. identify <i>characteristics</i> that make each individual different;	Our special characteristics: (a) age; (b) height; (c) weight; (d) gender; (e) ethnicity; (f) complexion.	<ul style="list-style-type: none"> ▪ Student write <i>at least</i> 5 sentences about himself or herself, each describing one of the physical features listed in the Content. ▪ Teachers are advised to engage students in discussion on other special characteristics that make each individual different. ▪ Preparation of personal ID cards using characteristics listed. ▪ "Guess who I am" activity. 	<ul style="list-style-type: none"> ▪ Students make presentations of their work. Students assess each other's representations of self. ▪ Students prepare short biography of self. ▪ Identify at least 3 similarities and 3 differences among classmates. ▪ Students present completed ID.
(b) Stages of Human Development			
2. describe the stages of human development;	(a) pre-natal; (b) infancy; (c) childhood; (d) adolescence; (e) adulthood; (f) senescence.	Groups of students develop an album or a journal using photographs or drawings in which they create a profile of self. <i>Items should include aspects of physical and emotional growth.</i> Each group may choose a different stage of development. <i>The profile should include (a) physical change (b) emotional (c) what social institutions could do to cater for the needs of the individual at the selected stage.</i>	<ul style="list-style-type: none"> ▪ Matching exercises comprising (a) statements describing the main traits at different stages of development and (b) a list of the different stages of an individual's development. SCHOOL-BASED ASSESSMENT

GENERIC TASK

There are two tasks to be completed for the *School-Based Assessment* in Module 1. These are listed below.

1. *A moral dilemma.*
2. *Interpretation of information on a family tree as described below.*

Task 1

Mr. Smith's Mobile Phone

Miguel and Hayden are best friends who both attend the same school and are in the same class.

Miguel has been known to take things that do not belong to him without the owner's permission while his friend always tried to follow the rules.

While passing a classroom, the boys spotted Mr. Smith's mobile phone on his desk. Miguel promptly removed the phone.

As it turned out, no one was aware of Miguel's action except Hayden and despite continuous appeals for the return of the phone, neither boy volunteered information on the phone's whereabouts.

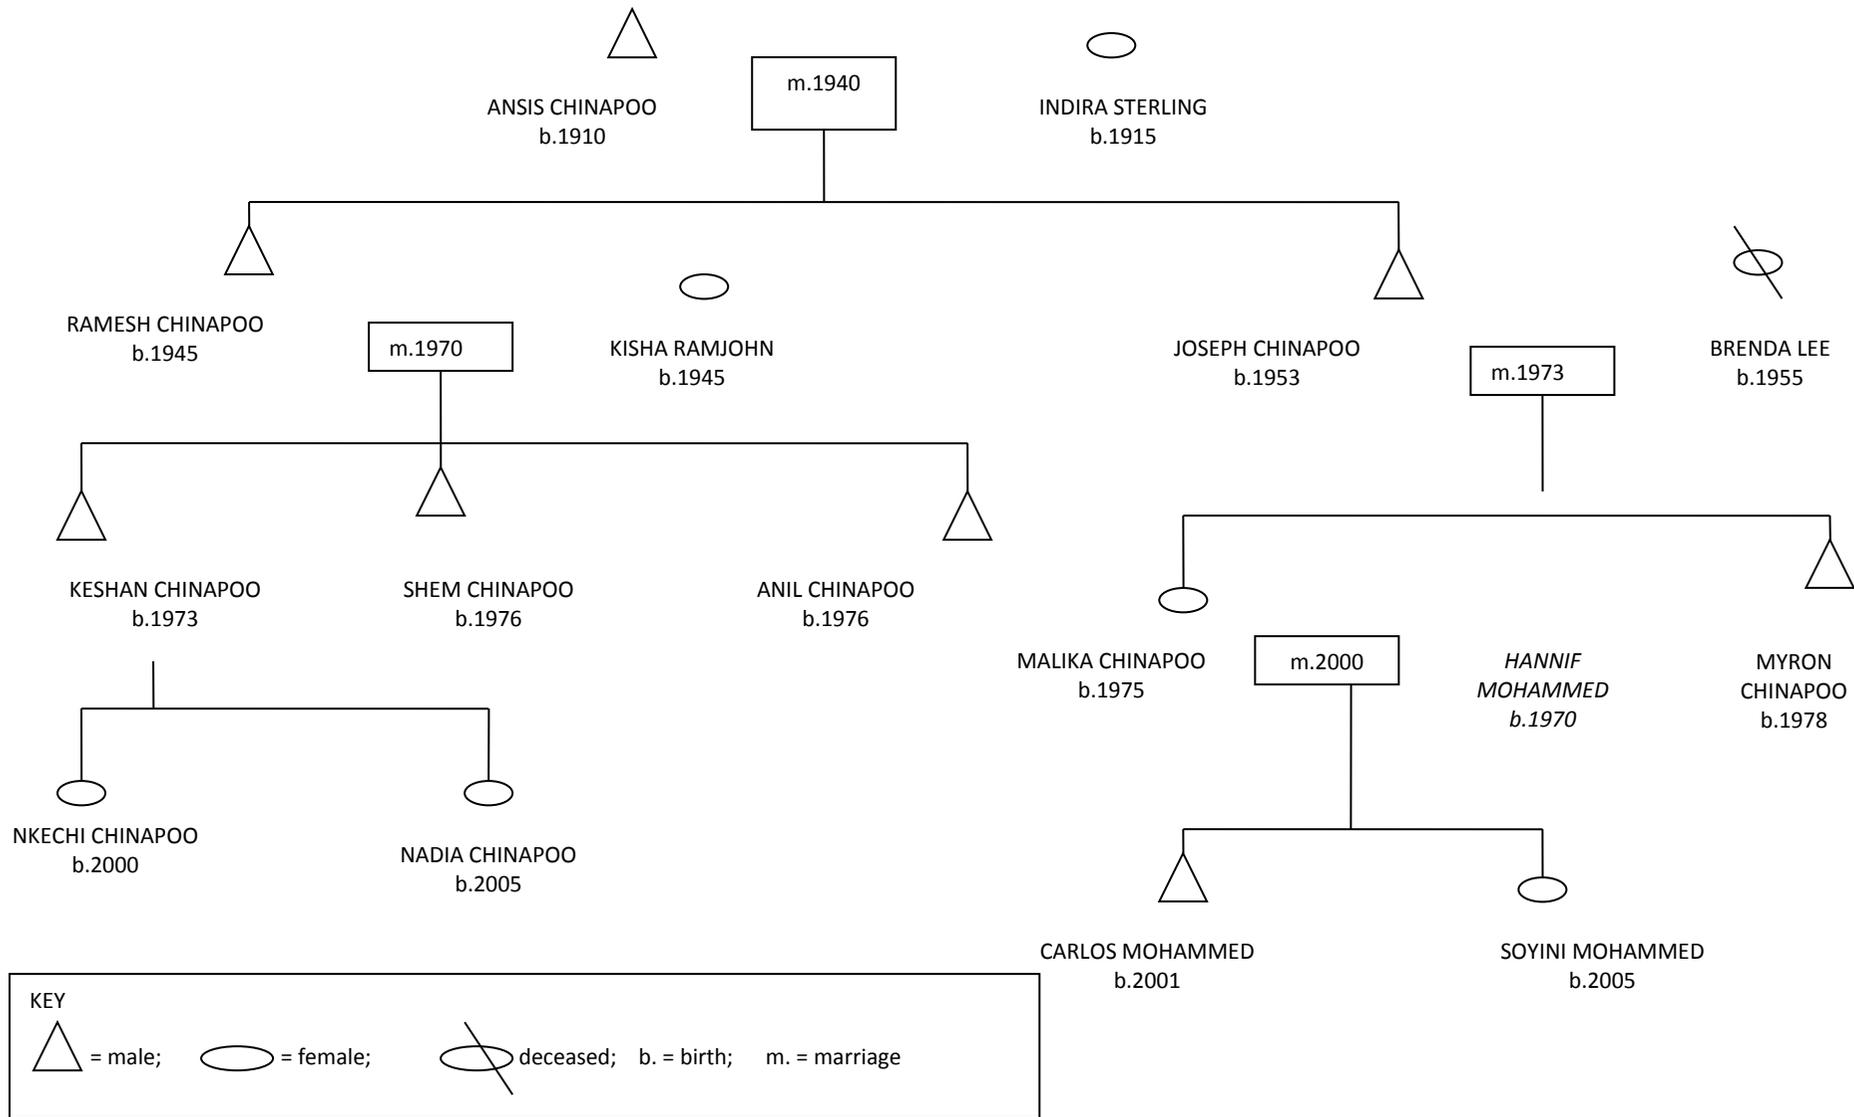

1. *Imagine you are Hayden. Give 2 possible courses of action that you can take in the given situation.* (4 marks)
2. *Which one of the two possible courses of action would you choose?* (1 mark)
3. *Give 2 reasons to justify your choice.* (4 marks)
4. *Explain one long term consequence of Miguel's behaviour.* (3 marks)

(Total marks for Task 1: 12 marks)

Guidelines for Task 2: The Family Tree

- (a) The tree should consist of four generations.
- (b) Two family structures should be represented in the family tree.

Task 1 should be marked out of 12. Task 2 should be marked out of 8. The total mark for the 2 tasks for Module 1 is therefore out of 20.

Students must answer the following questions on the family tree.

- (a) How many generations are shown on the family tree? (1 mark)
- (b) What is the relationship between Joseph Chinapoo and Soyini Mohammed? (1 mark)
- (c) In what year did *Haniff* and Myron become in-laws? (1 mark)
- (d) What is the relationship between Nadia Chinapoo and Anil Chinapoo? (1 mark)

SCHOOL-BASED ASSESSMENT

GENERIC TASKS

There are two tasks to be completed for *School-Based Assessment* in Module 3. These are listed below.

1. Questions to be answered on a monthly budget with information provided in a graph or pictorially.
2. Questions to be answered on steps to be taken in preparing for an interview.

Guidelines for Task 1: the monthly budget

- (a) The stimulus should begin with a statement that a single mother (name given), has a monthly income amounting to the local equivalent of US\$500.
- (b) The statement should be followed by a graphic or pictorial depiction of a monthly budget.
- (c) The graphic or pictorial representation should depict the single parent's budget allocation as described below.
 - (i) Food: local equivalent of US\$100
 - (ii) Rent: local equivalent of US\$100
 - (iii) Medical: local equivalent of US\$40
 - (iv) Transportation: local equivalent of US\$60
 - (v) Recreation: local equivalent of US\$90
 - (vi) Utilities: local equivalent of US\$80
 - (vii) Savings: local equivalent of US\$30

Type of Questions

Type of Questions to Be Asked On the Budget

- (a) one question on two items or areas on which most of the income is spent *(1 mark)*
- (b) one question on other items or areas that could have been included in the budget *(1 mark)*
- (c) one question on ways that can be used to supplement the income *(2 marks)*
- (d) one question on ways of improving spending patterns *(4 marks)*

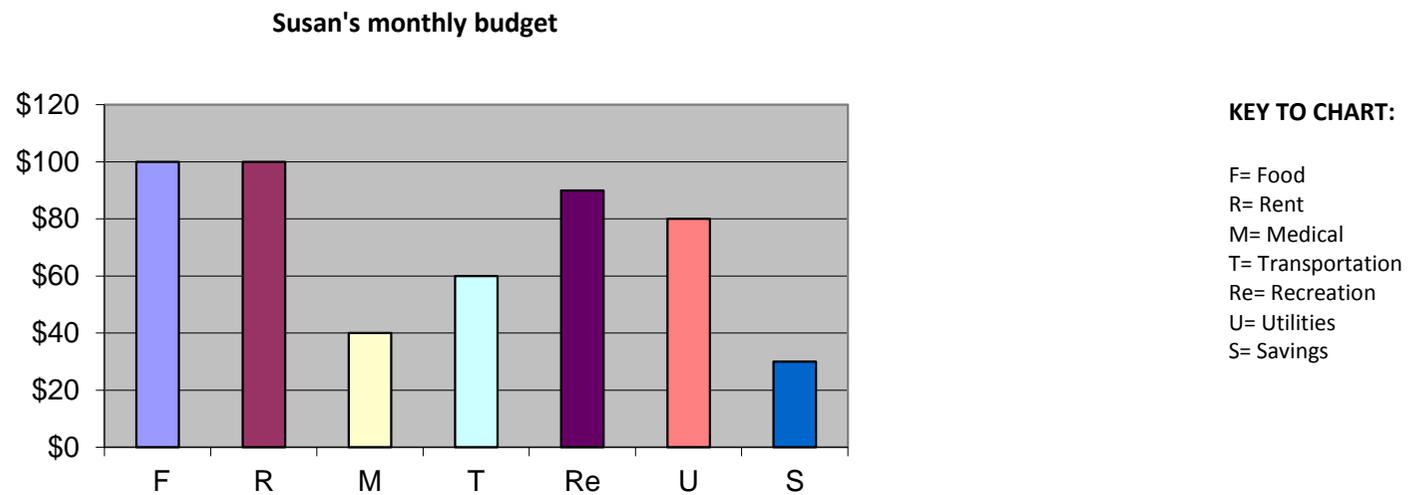

(Total marks for Task 1: 8 marks)

An example of a task for Module 3

The following is an example of the type of assessment that maybe used for the budget at the end of Module 3.

Task 1

Susan, a single parent with one child, has a monthly income of \$500.00 (use the local equivalent). The bar chart shows how Susan spends her monthly income. Study the chart and answer the questions that follow.
